HIGH LEVEL KNOWLEDGE AWARENESS OF BLOCKCHAIN TECHNOLOGY APPLICATIONS IN SMES

The 3rd Newsletter of the BCT4SMEs project

PILOT TESTS & MULTIPLIER EVENTS

Pilot tests: BCT4SMEs partners organized piloting activities in their countries in the context of IO2. 24 paricipants in each pilot event expressed their views and opinions following the testing of the newly developed BIA and it's functionalities on their devices and then evaluated the tool.

Multiplier Events: BCT4SMEs project was demonstrated to the target group during the project's Multiplier events. The following results were presented:

- IO1: Blockchain Technology Training Course- BCT Course
- IO2: Blockchain Implementation Assistant – BIA

During the multiplier events in all partner countries, participants were active, asking questions and showing great interest in the activities of the project, that led to the development of the results. The last session included questions, answers & evaluation questionnaires.

We would like to summarize the BCT4SMEs Project activities and thank all partners and participants for their cooperation!
The main results and outputs achieved under the project; which are the Blockchain Technology Training Course-BCT Course & the Blockchain Implementation Assistant-BIA ; are publicly available and are actively sustained after the end of the project. We look forward to continuing the common cooperation in the field of Blockchain involving all stakeholder target groups.
